

# TRADE SHOW BOOTH LAYOUT

Those that purchase a booth must adhere to policies. All decorations/booth aids must not infringe on neighboring booth boundaries or the aisle. All trade show participants will receive an information kit from the trade show management company by mid-November. Note that you are not required to purchase any additional equipment, furniture, etc. unless you desire to do so at the cost they provide. Any additional services you purchase through the trade show management company will be handled by the trade show management company. The PRCA will not receive or take payment for those services.
